Site Supervision

our story

Smooth Progress Successful Projects

Under our watch, your projects progress smoothly. With wide-ranging yet in-depth experience, our dedicated team ensures projects are delivered at top quality and in time.

Whatever the task – construction, demolition, addition and alteration, or even land reclamation – we have site supervisors with the skills and experience to know what to look out for.

We understand that supervision needs vary by project. That is why we work closely with clients and consultants to find the best fit, so we can deploy the most suitable staff for your site. Our services do not stop there. We work with you throughout the process, from staff engagement through deployment.

our services

OUR SUPERVISION SERVICES COVER EVERY NEED

- CIVIL & STRUCTURAL SUPERVISION
- MECHANICAL & ELECTRICAL SUPERVISION
- PRECAST SUPERVISION
- HORTICULTURE & LANDSCAPE SUPERVISION
- ARCHITECTURAL SUPERVISION
- SITE QUALITY AUDIT & INSPECTION
- RECLAMATION SUPERVISION
- SAFETY MANAGEMENT SUPERVISION
- SAFETY & HOUSEKEEPING SUPERVISION
- TECHNICAL TRAINING SERVICES

We know the crucial role that site supervisors play in making sure that projects are completed on time and according to expectations. Our supervisors' skills extend beyond inspection and supervision, to the checking of drawings and specifications, materials testing, earth control measures, and safety and housekeeping.

We cover practicalities such as progress reporting and recording, variation and costs reporting, and compliance with contract documents. On the ground, we are always ready with practical advice. Offsite, we help you co-ordinate with government agencies, contractors and developers.

Our work does not stop after the project is successfully delivered. We oversee the handover upon completion, and continue to follow up during the defects liability period. Our site supervisors handle public relations with residents, grassroots leaders, and the public. And through it all, we make sure to keep you in the loop.
